AFE history	Have been an active member of chapter 84 and have served in chapter leadership for most of the last 17 years.
Work history	Engineering Document Control/CAD Mgr. — Pfizer Inc., 2001-Present; Facilities/Reliability Engineer — Pharmacia, 1989-96; 98-2001; Maintenance Supervisor — Pharmacia, 1996-98 Computer Aided Drafter — The Upjohn Company 1985-1989
Why I should be elected to the position	I have solid and consistent connections and involvement with the organization going back to the days when we were AIPE. I care deeply about the profession of Facilities Engineering and the financial health of AFE as the organization that promotes it. I'm an active and engaged member of AFE and willing to SERVE. Known as a person of integrity and a compulsive "rule follower", I'd bring to the Vice Chair of Finance role a strong attention to detail. In my other non-profit board experience and church roles, budget oversight and financial integrity are

paramount. I'd bring that same commitment to the role of Vice Chair of Finance.
